HVAC DEPOT

EC Fan 0–10V Wall-Mounted Control Panel

This wall-mounted speed controller is designed for easy and reliable control of EC fans.

Featuring a user-friendly interface with large, easy-to-press buttons, it allows precise speed adjustment from 0% to 100%, ensuring optimal airflow control for various applications.

Key Features:

Easy Installation: Quick wall-mount setup with clearly marked mounting points (60.30 mm center distance).

User-Friendly Design: Large, responsive buttons ensure ease of operation.

Wide Compatibility: Suitable for all our EC fan models.

Safe & Durable: Constructed with an insulated PVC panel for enhanced safety during operation.

Electrical Specifications:

- Input voltage: 10 VDC
- Output voltage: 0–10 VDC
- Max input current: 10 mA

Long Service Life: Rated for up to 40,000 operations
